SERVICES AND SOLUTIONS FOR TRANSPORT LOGISTICS

The leading Russian and international rail, road, sea and air transporters, port and terminal operators, warehouse owners, freight forwarders, insurance brokers, IT-solutions developers and suppliers, and complex logistics solutions companies will take part in TransRussia.

Traditionally, at TransRussia will participate TransContainer, Global Ports, DeloPorts, RUSCON, FESCO, NEW LOGISTIC, UTLC ERA, MODUL, Modum-Trans, RZD Logistics, BALTKRAN, Globaltrans, SASCO, RUSMARINE, Spasskie vorota, INGOSSTRAKH, Solvo, LiderTrans, Avtodor Toll Roads, GARANT RAIL SERVICE, DVTG, and others.

The international exposition will consist of ADY Express, PTC Holding, Nova Supply Chain Management, Eastcomtrans, Neptune Logistics, ARDNA, Stena Line, Monretrans Group, SJ Logistics, and others.

New exhibitors like Volga-Dnepr Group, Russian Post, Sovtransavto Logistics Rus, Atasu Group, QUBE, Railship Service, MMC Usady, EuroEast Group, Sarjak Container Lines, Logbox, REFAGROTRANS, and many others will showcase their products.

SKLADTECH: SERVICES AND SOLUTIONS FOR WAREHOUSE LOGISTICS

The new SkladTech project will be presented at TransRussia 2022. This is a special sector of equipment and solutions for warehouse logistics. SkladTech will bring together manufacturers and distributors of warehouse equipment, storage systems, material-handling equipment, picking and packing services, and identification technologies. Warehouse automation and robotization services and WMS systems will be showcased.

In 2022, 29 companies will present warehouse logistics solutions: FIRST, Bristol Group, Micron, Noblelift, Octron, TD TDS, Maximal, HYSTER, SKAT, STELLMART, STELKON FACTORY, Rusklad, iplast, Ateuco, Sovtest, INTELLIGENT SERVICE, EcoSklad, Urovo, Infotech, SCANCODE, Siltech, TISO, SWEMA, Garpix, RD Group, and others.

Co-organizer of SkladTech: Logistics Coordinating Council

MOSCOW MUSEUM OF TRANSPORT AT TRANSRUSSIA 2022

The TransRussia exhibition and the Moscow Museum of Transport are launching an ESG project "Timeless Logistics". The exposition "Evolution of Russian freight transport" will be presented at the exhibition. The representatives of the Museum will present retro trucks.

TransRussia 2022 will become a key platform for the integrated solution of business problems, where industry representatives will be able to meet with the service providers, negotiate with top officials, find new partners, and receive information on the current market situation.

BUSINESS PROGRAMME

The TransRussia transport and logistics congress will last 3 days and will consist of 6 conferences. The experts will discuss the main changes, current trends and prospects for the development of the market in the new reality.

26th International Conference for Cargo Owners and Carriers "TransRussia" (12-14 April)

The conference will start with the plenary discussion "Modern realities of freight transportation: priorities and guidelines". The speakers will discuss the future of rail and multimodal trans-Eurasian transportation, transit opportunities, transport communications of the Russian Far East, and customs projects for movement of goods.

At the panel discussion “Container Shipping: New Logistics Solutions” the experts will discuss the development of international container traffic, transport products, infrastructure modernization, logistic capacities of the Russian-China border, and digitalization of transport. The sessions will be co-organized by the International Coordinating Council on Trans-Eurasian Transportation.

On the second day, the strategic session “Forward to multimodality: electronic document management” will be dedicated to the GIS EPD, the timing and problems of the transition to EDI, and the single standards for multimodal transportation documents. Strategic partner of the session: Digital Transport and Logistics Association.

The key issues of the session “Ports and maritime logistics in times of instability” will be the impact of the current situation in the industry, the measures, and the interaction between ports and the railway.

At the session “Transport and Logistics: Adapting to the New Reality” the experts will talk about the development of the logistics market in the new reality, the government support, and the business models. Session will be co-organized by the National Union of Transport and Logistics Experts.

Also on the second day, sessions and round tables will be held: “Spare parts: technological risks of Russian manufacturers and repairers of freight cars in connection with the imposed sanctions”, the meeting “Transboundary: looking beyond”, and the panel session on the legislative support of the perishable product logistics.

On the final day, visitors will be able to participate in the meeting of the Customs and Transport Committee of the Franco-Russian Chamber of Commerce and Industry. The experts will discuss support measures and customs issues. The panel session “Logistics under sanctions” will be dedicated to the topic of cargo insurance.

6th Conference “IT Solutions in Transport and Logistics” (12 April)

Top managers and heads of IT departments of transport companies, representatives of government agencies, and integrators of IT products will discuss the main changes, tasks and strategies in IT.

2nd Enterprise Intralogistics Management Conference (12 April)

The SkladTech special project will hold the 2nd conference on intralogistics management at the enterprise. Experts will discuss:

- How to reduce transportation costs in the regions
- How to accommodate increasing inventory
- How to improve the lead-time of customer orders
- How to improve order picking speed
- How to reduce the resource intensity of order processing for warehouse marketplaces
- Logistics outsourcing or in-house logistics
- How to organize e-commerce using offline sales
- How to ensure high speed of delivery without building your own logistics network and pickup points
- Robotic solutions in warehouse processes and innovations in warehouse robotization

The conference will include 3 sessions: the panel discussion “Intralogistics of a company: how to reduce operating costs”, the discussion session “Restructuring the logistics of a retailer, distributor and supplier: working with marketplaces”, and the session “Technical solutions in warehouse automation”.

The partners of the event: the Logistics Coordinating Council and the Russian Association of Robotics.

6th Oversized and Heavy Cargo Transportation Conference “Breakbulk Russia” (12 April)

At the conference the experts will talk about the development of logistics, the new technologies, the key risks, and the development of the Russian fleet of vehicles for the transportation of heavy cargoes.

2nd industry conference “Logistics in e-commerce” (13 April)

The plenary session “How to digitize logistics and increase the profit of online stores?” will be dedicated to automation, optimization and reduction of logistics costs. The speakers will talk about the labor costs, the warehouse logistics, and efficiency.

4th Supply Chain Management and Optimization Conference (14 April)

On the last day of the exhibition, the “SCM Club” will take place. The industry experts will share real-life experience and discuss trends, new challenges in logistics, and supply chains. The conference will be co-organized by the Council of Supply Chain Professionals.
